PROFESSIONAL PROFILE

Java Full Stack Developer Jr. with experience in web application development using Java, Spring Boot, JavaScript, React, and SQL databases. Focused on building efficient, scalable, and results-driven solutions. I have previous experience in high-pressure operational environments, which strengthened my analytical skills, problem-solving abilities, and teamwork. Currently seeking to join a technology environment where I can continue growing as a backend/full stack developer.

TECHNICAL SKILLS

Languages: Java (JDK 21), JavaScript (ES6+), SQL, HTML5, CSS3. Backend & DB: Spring Boot, MySQL, PostgreSQL, JDBC. Frontend & Tools: Bootstrap, REST API, Git, GitHub, VS Code.

SOFT SKILLS

Problem solving | Analytical thinking | Teamwork | Adaptability | Assertive communication | Self-taught learning | Results-oriented.

ACADEMIC PROJECTS

E-commerce | Syntax Logistics (May 2026 - July 2026)

- Development of an e-commerce platform focused on local shipping and logistics services.
- Design of an intuitive UI/UX interface for quote, tracking and shipment scheduling.
- Implementation of front-end technologies such as HTML, CSS, JavaScript and React.
- Collaborative project management using SCRUM methodology and tools like GitHub, Jira and Figma.

WORK EXPERIENCE

Operations Manager | Aerolíneas Ejecutivas (July 2018 - January 2024)

- Coordination of airport operations across areas such as ramp, maintenance, supply and customer service.
- Supervision of 27 employees distributed across 3 operational shifts.
- Management of operational timelines to ensure punctuality and schedule compliance.
- Monitoring of operational KPIs, incidents and ground support equipment reports.
- Communication with aeronautical authorities, crew and clients for resolution of operational contingencies.

Operations Officer | GAFSACOMM (May 2024 - January 2025)

- Monitoring and supervision of operations at Aeropuerto Internacional del Norte.
- Preparation of operational reports such as NOTAMs, Runway Condition Reports and platform management.
- Coordination with suppliers, maintenance teams and airport community for operational compliance.
- Delivery of training sessions on movement area circulation and operational safety.
- Development of a Python bot to optimize administrative processes and airport fee management.

Airport Services Administrator | GAFSACOMM (January 2025 - April 2026)

- Administration and control of charges related to airport services.
- Supervision of billing processes and operational revenue control.
- Management and collection of administrative and financial information.
- Implementation of digital improvements to optimize internal processes.
- Monitoring of operational indicators and support in accounting and administrative processes.

Airport Fee Automation | Python

- Development of a Python bot to automate administrative processes related to airport service fees.
- Workflow optimization reducing operational times and manual errors.
- Implementation of automation for collection and processing of administrative information.
- Project deployed within real airport operations.

EDUCATION

- **Business Administration Technician** | William Blake (2020 - July 2022)
- **Java Full Stack Developer Jr. Bootcamp** | Generation México (2026 - 2026)
- **Operations Officer** | Vuelo Uno (September 2022 - 2024)

COURSES

- Introduction to Java Full Stack Development | Generation México (2026)

- Analysis and Monitoring of Operational KPIs | Corporate Training (2025)
- Airport Operations Management | GAFSACOMM / Internal Training (2025)
